

Safeguard Your Schools with Modern Physical Security

Overview

Verkada's cloud-based physical security platform enhances security, accelerates emergency response, and consolidates operations for schools and districts. Modernize your school security while mitigating cybersecurity risks and protecting student privacy.

Protect students and staff

Search with AI

Quickly find footage of an incident by typing everyday descriptive language into a search bar to locate specific events or altercations on campus.

Enhance visitor security

Screen visitors upon check-in and run additional searches against sex offender registries and criminal databases.

Accelerate emergency response

Coordinate with police

Grant user access to law enforcement agencies or stream camera footage directly to their Real-Time Crime Centers (RTCC)s.

Grant building access remotely

Remotely grant door access to law enforcement personnel, unlocking specific doors while keeping other doors locked.

Run an image search

Use optional AI-enabled analytics to quickly upload a photo of a person or object and run an image search to speed up investigations.

Restrict building access

Keep bad actors out by setting customized door schedules and restricting building access during school or after-hours.

Share live floorplans

School administrators can share live floorplans via SMS or a direct link to reveal campus activity hotspots and assist responding officers on-site.

Monitor school environments

Get notified when abnormal spikes in noise, motion, or temperature are detected, signaling a potential fight.

Trusted by K-12 organizations globally

Optimize campus operations

Automate credential management

Automatically provision supported access credentials such as EV3 fobs and badges, or auto-revoke credentials upon staff departure.

Simplify front desk operations

Reduce long check-in lines and automate visitor badge printing by adding returning visitors to approved guest lists.

Track tardies and dismissals

Track student tardiness and early dismissals with a visitor management system that integrates with SIS platforms like Clever and ClassLink.

Why Verkada?

No NVRs or DVRs
– up to 365 days of onboard storage

Unlimited user seats and cloud archiving

Up to 10-year product warranty and predictable renewal costs

24/7 technical support via email, phone or live chat

Cybersecurity protection SSO, 2FA, and Enterprise Controlled Encryption

Automatic updates to unlock features and maintain security

Video Security

Record 24/7 with AI-enabled cameras that support privacy-sensitive features such as live face blur and privacy regions.

Access Control

Automate staff credential provisioning and assign granular user permissions with cloud-based access control.

Alarms

Deter trespassing and break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Intercom

Safeguard school entryways and grant building access remotely with a cloud-based video intercom system.

Air Quality Sensors

Set custom alerts for noise, vape, CO2, and other air quality indicators to detect potential health hazards on campus.

Connectivity

Easily deploy Verkada devices with gateways in hard-to-wire locations like parking lots, gates, fields, and stadiums.

Guest

Streamline visitor check-ins and enable sex offender and criminal database screenings with a digital visitor management system.

Mailroom

Optimize delivery management by tracking package drop-offs with a simple mobile scan and auto-notifying recipients upon delivery.

Viewing Station

Stream up to 300 live camera feeds into one centralized location and gain instant visibility across your campus or district.
